How to Stay Safe
On the internet!

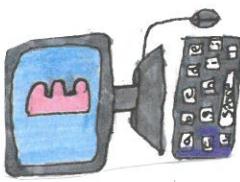

= SPEAK to somebody
if you need help!

= ASK an adult
before going online!

FRIENDS are
real people we know!

ENJOY, play,
have fun and Stay
Safe!

Online can be fun Such as games and videos etc,
but people can be mean! Which we don't want.
to avoid that and to keep having fun.
Q Simple 'OK' would drive them nuts and me more
we say that the more they would get frustrated and they'll
leave.

If you are being bullied tell a Parent or School Staff or Someone you feel comfortable with. Do not react or fight back as it will just make bigger problems. Bullies usually do it as they have problems at home. If someone is Cyberbullying usually do it as they have immediate. Also don't block them immediately. Also don't respond to the messages or they will respond to the messages.

STOP
BULLYING
AND
CYBER-
BULLYING!

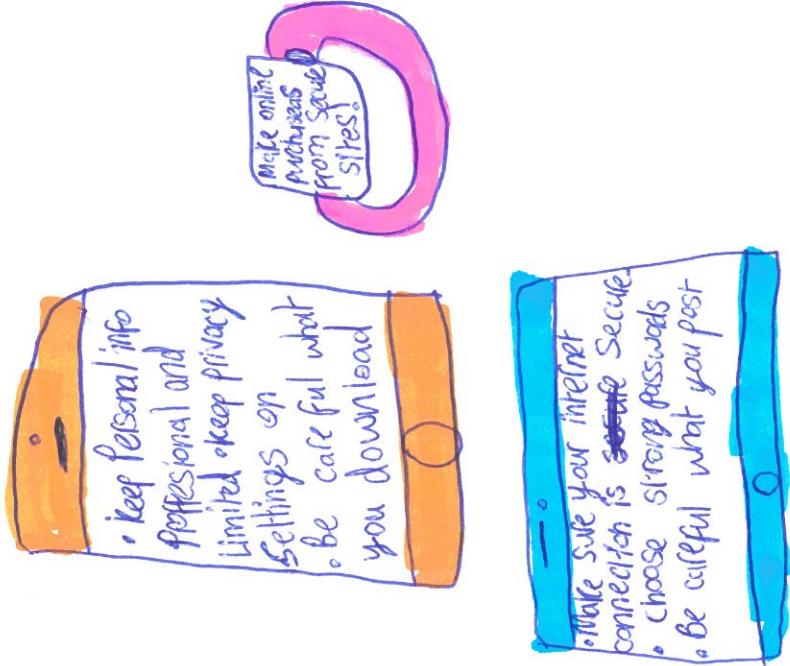

Internet Safety!

Ten Facts for Staying Safe online!

DON'T TELL ANYONE ONLINE YOU DON'T KNOW, YOUR PERSONAL INFORMATION!

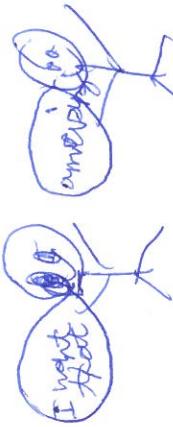

This #SaferInternetDay I want to talk about...

I think the internet should
~~be a safe place~~
also a fun place

ONLINE SCAMS

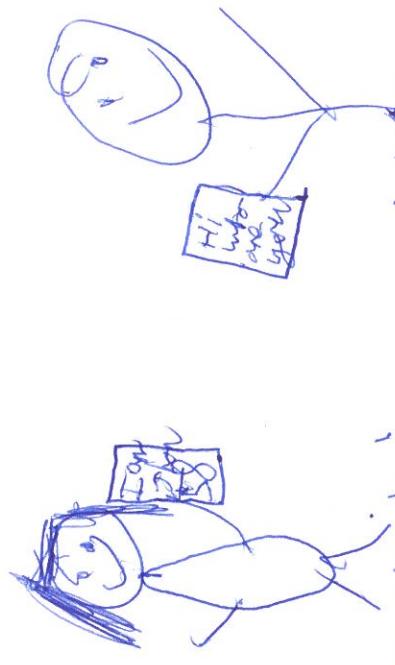

Things like this happen all the time:

Come and get it 5%
of its only
500,000
1,000,000

What is happening is so
people need to stop scamming
we need to stop scamming

stop people trying onto internet

What Parent Should do to
ensure their children are safe online.

To ensure that your children are safe online you should add some restrictions so your child can only do certain things such as time limits or age restrictions or you can monitor what they watch.

Educate here kids what is right and wrong on the internet such as trolls and scammers.

SAFER INTERNET DAY

• Restrictions need to be set so that children don't interfere with possible screens.

• Not everything on the internet is appropriate for children so restrictions need to be set for that too.

You could download apps for screen time on your child's devices or something else that

will keep track of everything. If your child looks upset after being on their phone maybe

Safer internet day is a time where people should change things on their phone

On games that your child play if they might have a friend that they never met before

Check what is going on by getting hold of their phone.

Make sure to always be on top of everything that is going on on their phone.

Making Safe, happy space

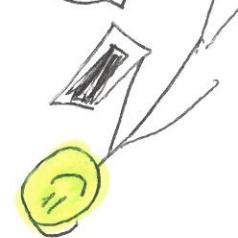

Feel no more !!

We need To make internet
a safe ; happy enjoy your space!

I always tell
a parent or
teacher
if you
are being
bullyed.

People don't bully
me any more because
I told a parent.

Online Bullying

children
online
are constantly
getting bullied.

this is so
bad to see!
all because
of what they
look like
or what they
believe!

Our Safer Internet Day Youth Charter, as written by: *Shawn Bowers*

We want an internet that is... *Kind, No bullying or being mean, happy, a good place to be and safe for all*

The government can help achieve this by... having a bigger team for people who report stuff and not take ages to respond.

The government can show they're listening to children and young people by... talking to their parents and banning the bad people.

The internet industry can help achieve this by... getting banned quicker and the reporting.

The internet industry can show they're listening to children and young people by... taking more bad feedback

Children and young people can help achieve this by... listening to their parents and not

talking to strangers and report and ban the bad people and tell someone.

Teachers and professionals working with young people can help achieve this by... giving them lessons about safer internet

Teachers and professionals can show they're listening to children and young people by... if something happens to them they can have a lesson with the class about it.

Parents and carers can show they're listening to children and young people by... giving them a lesson about it.

We want an internet that is... Safe, true, with nice polite people and kid friendly

The government can help achieve this by...

more alert people checking every picture or video before letting people upload it. Making people check that everything is true before letting them upload the text. Only letting nice texts for comments or posts.

The government can show they're listening to children and young people by.... screen recording every device that logs on.

The internet industry can help achieve this by...

once someone reports to urgently check and if needed ban them and tell them once they were banned.

The internet industry can show they're listening to children and young people by.... once you download the paragraph saying that you can ban the people who aren't nice.

Children and young people can help achieve this by...

listening to dangers and trust what they are saying.
Be safe on apps and report anything you don't feel comfortable with.

Teachers and professionals working with young people can help achieve this by...

in lessons talk about safety on apps and stuff not to do on apps and how to share videos and pictures online safely.

Teachers and professionals can show they're listening to children and young people by.... knowing all about dangers in apps.

Parents and carers can help achieve this by... talk to the children about the app and the dangers or getting them on a course.

Parents and carers can show they're listening to children and young people by.... doing it and showing them videos.

Our Safer Internet Day Youth Charter, as written by:

Rebecca.....

We want an internet that is...

Safe
Harmless

The government can help achieve this by...

Monitoring
monitor it more

The government can show they're listening to children and young people by...

Monitoring

Teachers and professionals working with young people can help achieve this by...

Watching students
about the dangers
of using the internet

Teachers and professionals can show they're listening to children and young people by....

Discussing with them what they are looking at

The internet industry can help achieve this by...

blocking inappropriate things
from being uploaded.

The internet industry can show they're listening to children and young people by....

going into school and talking
to students

Parents and carers can help achieve this by...

by monitoring what children
do on the internet

Parents and carers can show they're listening to children and young people by....

talking to them

Children and young people can help achieve this by...

being responsible
what they are
looking at
