Make the right choices!

Be respectful to all players and be positive! You can do this by encouraging your partners and saying things such as 'good try'.

If you believe that someone is doing anything wrong, or disrespectful speak up!

Explain to them what they are doing is wrong. Don't be afraid.

Create your own boundaries, if you don't want to talk to people online, that is ok!

If you don't feel comfortable with playing with certain people, then don't.

If you feel like you are being bullied or being made fun of, report and block the person!

Go tell an adult or guardian. Don't be afraid to stand up for yourself.

To stay safe online it's very important to respect other people. Don't think that just because you're behind a screen, what you say and do to others doesn't matter!

Remember that behind every phone number and every avatar is a real person with real feelings. Be considerate, treat others how you'd like to be treated, and don't say anything that you wouldn't say to somebody's face.

If somebody is being unkind to you, don't interact with them, just report, block, and carry on with your day.

BE
SAFE

You need to have respect and be careful who you are speaking to when playing an online game with people you don't know. If something happens to you, you need to report, block and tell a trusted adult whoever it could be.

Always stand up for friends if they are in a scary situation and let those players know they are wrong. Always log into games you are familiar with and if you are not, then be extra careful for the first few games.

Top tip: Never agree to meet up with someone you are not friendly with in real life. Remember, the internet is fake and hackers are real. Try and not use the same username as your other social media accounts as people will try to find you!

The internet can be scary but also a great place too, so be safe and cautious but have fun!

If someone is following online who is being mean, report it to an adult and block them.

Speak up if someone is bullying you online and maybe tell an adult or maybe a guidance person or just someone that is older than you.

You should also never message random people who you don't know online.

You should have respect for others online. Always be careful who you play with. If anything bad happens make sure you let an adult know.

If you or your friend are in danger, always make sure you tell an adult. Don't ever tell anyone private information if you don't know them.

You should never agree to meet up with someone that you don't know as it could put you in danger.

If someone bullies you online, you should block them and report them as bullying isn't tolerated.

IF SOMEONE YOU DONT KNOW ADDS YOU AS A FRIEND ONLINE, IT IS RECOMMENDED TO NOT ADD THEM AND PLAY YOUR GAMES WITHOUT STRANGERS.

When someone else gets bullied, you should speak up and tell people to not bully, as its not acceptable.

Do you know how to stay safe online?

Staying safe online can be hard but we will break it down in some simple steps:

Step 1) Be kind

Step 2) Don't talk to strangers

Step 3) Report to an adult

**Stay
Safe!**

These are important steps to follow when gaming online. Stay safe and have fun!
